

# JOINT INTERNATIONAL RESOLUTION

## Resolution to Condemn the Obsidian Bombing of Cities

Obsidian bombing (obby bombing) cities is an act performed by cowards and alt raiders. Cities on CivClassic serve as a place to showcase building ability and come together as friends, playing together and trading. Any person who targets cities for obby bombing do so out of malice with no military value whatsoever. Defensive infrastructure (bunkers, vaults, trenches, and ice roads or rails to those) is recognized as having military value to be targeted for obby bombing.

Any person or nation who is planning, or has carried out, the obby bombing of a city is hereby condemned.

Any person or nation who knowingly harbors a player, or group, that is planning, or has carried out, the obby bombing of a city is hereby condemned.

Any person or nation who knowingly supplies materials to a player, or group, that is planning, or has carried out, the obby bombing of a city is hereby condemned.

Any condemned player or group, as noted above, will be barred from entering the undersigned nations.

Any condemned player or group, as noted above, will be barred from trading with players of the undersigned nations.

Any nation undersigned, which breaks the agreements above, shall be condemned by the other signatories and bound by the restrictions above.
